

DYNAMO ROCKS!

Forged by rain and wind, there are few things more graceful than a mountain. Now, you can bring miniature mountains to your playground. Unlike their larger cousins, **Dynamo ROCKS!™** are made from fibreglass moulded from real rocks so they look just like the real thing. With standard anti-graffiti coating and UV resistant material, and optional flame resistant material, **Dynamo ROCKS!™** are sure to stand the test of time in your playground. These games help bring movement, balance, exercise and fun back into the playground.
